

Changes to the Rules for Using Bathrooms

Grades K-5

[House Bill 257](#)

The law changed, AND...

We want to make sure every student feels safe and accepted in our school, classrooms, lunchroom, library, gymnasium and bathrooms.

House Bill 257

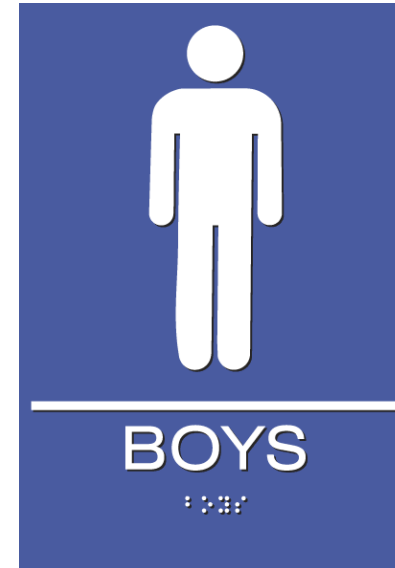

The new legislation says we need to tell everyone that if you were assigned a girl at birth, you need to use the girl's bathroom at school.

House Bill 257

The new legislation says we need to tell everyone that if you were assigned a boy at birth, you need to use the boy's bathroom at school.

We can help you.

If you have a question about which bathroom you should use, talk your parent, teacher, counselor, or the principal.

This law goes into effect on May 1, 2024.

- If you experience any bullying or have concerns about what is happening in a restroom tell your principal.
- You can report bullying or safety concerns using the SafeUT app.
- We want all students to feel safe.

SAFE

Take care of yourself.

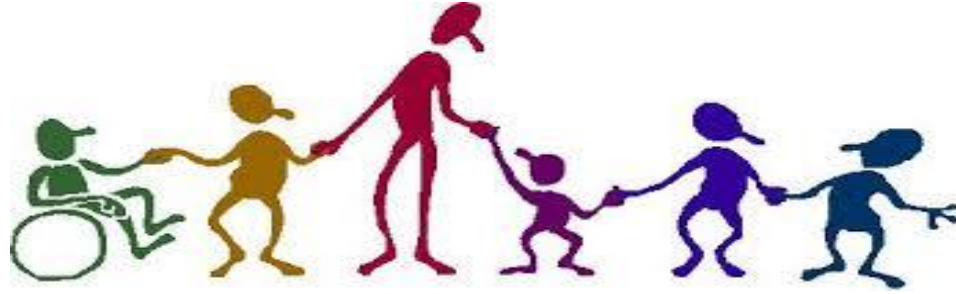

It is not good for your body if you try to hold it and do not go to the bathroom when you need to.

We will help you.

If you do not feel comfortable in the bathroom you are directed to use, let us help you make a plan.

“No matter what legislation is enacted, our schools and district facilities will remain safe and welcoming places for all students and staff and their families.”

**Dr. Elizabeth Grant,
Superintendent**
